

ASHISH SHARMA

Backend Developer | Node.js | System Design

+91 8957392021 | ashishsharma90807@gmail.com | github.com/ashishsharma349 | Lucknow, India

SUMMARY

Backend Developer specializing in building scalable Node.js systems and clean-architecture applications. Proficient in REST API design, stateless JWT authentication, and MongoDB optimization, with a solid foundation in system design principles and data security.

TECHNICAL SKILLS

Backend: Node.js, Express.js, Python, MongoDB, PostgreSQL, REST APIs, JWT Authentication

System Design: API Design, Database Optimization, Caching, Scaling Patterns, Security, Load Balancing

Frontend: React, JavaScript, Tailwind CSS, HTML, CSS

Tools & Platforms: Git, GitHub, Docker, AWS, Vercel, Linux, VS Code

Other: LLM Fine-tuning, Ollama, API Testing, Debugging

PROJECTS

Orbitra — AI-Powered Trip Itinerary Platform

Live: orbitra-trip.vercel.app | GitHub: github.com/ashishsharma349

- MERN-stack application that parses travel documents (PDF/images) and generates structured trip itineraries using Gemini API
- Implemented JWT authentication with HTTP-only cookies, input sanitization, and CORS security
- Deployed backend on Render and frontend on Vercel
- Tech: React, Node.js, Express, MongoDB, Gemini API, JWT, Cloudinary, Vercel, Render

FixMate — Building Maintenance Management System

GitHub: github.com/ashishsharma349/FixMate

- REST API with proper HTTP methods, status codes, and rate limiting (10 requests/min per user)
- Stateless JWT authentication supporting horizontal scaling
- Database indexing optimization: 800ms → 120ms response time
- Role-based access control (RBAC) for user, admin, and super-admin roles
- Tech: Node.js, Express, MongoDB, React, Tailwind CSS, JWT

EDUCATION

Bachelor of Computer Applications (BCA)

National Post Graduate College, Lucknow | Aug 2023 – May 2026

CERTIFICATIONS

- Artificial Intelligence Fundamentals — IBM SkillsBuild (Mar 2026)
- Machine Learning — Internshala Trainings (Jun 2025 – Jul 2025)

PUBLICATIONS

- Barriers to Effective Integration of AI in Educational Systems — TEJAS Journal (First Author, 2026)
